

National Summer Institute on Addictions

Building Bridges: Justice, Addictions and Mental Health

Credit towards Continuing Education Requirements

for the

Canadian Addiction Counsellors Certification Federation

The Canadian Centre on Substance Abuse has arranged for the Canadian Addiction Counsellors Certification Federation (CACCF) to allow 20 hours towards members' Continuing Education credits. These are core hours, given the direct applicability of the topics addressed during the 2010 National Summer Institute on Additions (NSI).

Participants who successfully complete NSI 2010 will receive a certificate of participation acknowledging the 20 hours of continuing education credits.

To receive the credits, CACCF members must submit the certificate at the time of recertification.
