

Cannabis Webinar Series: Emerging Research and Implications Day 3 Agenda

October 20, 2021
12:00–1:30 p.m. (EDT)

Clinical and Mental Health Implications, Part II

This webinar will build on themes from the previous webinar on clinical and health implications, looking at the impact of legalization on associated health and mental health risks. It showcases research seeking to understand the potential for cannabis as clinical treatment for various mental and physical conditions (e.g., depression, autism, concussion, and post-traumatic stress disorder), and across different populations.

Time	Agenda Item	Presenter
12:00–12:10	Welcome and Opening Remarks	Amy Porath, Director, Research, Canadian Centre on Substance Use and Addiction
12:10–12:20	Presentation 1 Addressing Potential Negative Impacts from Cannabis Legalization Self-Directed Intervention for Cannabis Misuse	Dr. David Hodgins, Professor, University of Calgary
12:20–12:30	Presentation 2 A Clinical Study of Cannabis for Insomnia in Depression	Dr. Benicio Frey, Associate Professor, McMaster University
12:30–12:40	Presentation 3 Cannabidiol as a Treatment for Post-Traumatic Stress Disorder Among Canadian Veterans: A Pilot Clinical Trial	Dr. Kevin Shield, Independent Scientist, Centre for Addiction and Mental Health
12:40–12:50	Presentation 4 A Scoping Review to Assess the Effects of Medical and Non-Medical Cannabis Use in Older Adults	Dr. Brian Hutton, Director and Senior Scientist, Ottawa Hospital Research Institute AND Dr. Kim Corace Vice-President, Innovation & Transformation, Royal Ottawa Mental Health Centre

Time	Agenda Item	Presenter
12:50–13:00	Presentation 5 Understanding Cannabis-Related Physical and Mental Health Presentations to the Emergency Department Following Legalization of Non-Medical Cannabis Use	Dr. Phil Tibbo, Professor, Dalhousie University
13:00–13:30	Q&A and Closing Remarks	Rebecca Jesseman, Director, Policy, Canadian Centre on Substance Use and Addiction
